

MOTORCYCLE

Increased power - less maintenance - longer life

Maintenance Free High Performance

If high power is top priority in a replacement battery, look to Yuasa's High Performance Maintenance Free batteries. Yuasa means more power, less maintenance and longer life. Yuasa's High Performance Maintenance Free batteries are your best choice for motorcycles, utility vehicles, scooters, ATVs, riding mowers, personal watercraft and snowmobiles.

All of the features of a Standard Maintenance Free, PLUS Increased Power – Up to 30% more cranking amps thanks to a radical grid design and additional places.

Maintenance Free VRLA

VRLA (Valve Regulated Lead Acid) means a battery that's perfect for people who have better things to do than battery maintenance! Our permanently sealed VRLA battery never needs refilling; however, it still needs periodic charging. Ideal for motorcycles, scooters, ATVs, riding mowers and personal watercraft.

- **Spill-proof design** means virtually no possibility of leaks.
- **Advanced lead-calcium technology** pumps up starting power.
- **Sulphation retardant** dramatically reduces battery-killing plate sulphation.
- **Long lasting** which means Yuasa's High Performance Maintenance Free batteries will last up to three times longer than conventional batteries.
- **Exceptional resistance to vibration** makes Yuasa the most reliable battery on the market today.
- **And, VRLA batteries hold voltage** longer and need less charging in standby or storage mode.

Yuasa have always strived to exceed the needs of the manufacturers with technology that meets the demanding requirements of their motorcycles.

Manufacturers demand the best and they overwhelmingly choose Yuasa...so should you!

Throughout the years, Yuasa has supplied more batteries to motorcycle manufacturers than all other battery manufacturers combined.
